

Thank you for the opportunity to serve on the Port. I have always been open and honest, and willing to sit down and meet with everybody in our community.

We are all volunteers on the Port Commission. I'm not a politician or anything – I'm just a lifelong resident trying to do what's best.

Here Are My Views:

- Keep the Port governed locally. No outside interests dominating our business.
- Offset infrastructure and service costs through innovative, safe uses of our land.
- The Port should remain a generous leader within the Cascade Locks community.

Beliefs of Those Trying to Recall Me:

- They disagree with attracting funds via diverse, job-creating businesses.
- They would prefer increasing taxes, fees, and tolls.
- They have said false things about myself, and Jess Groves, to achieve those ends.

Each claim made against me (by a small group) is nebulous and lacking real substance. They're just unhealthy examples of finger pointing – and they know it.

For many years at the Port, we have functioned well. Now with a new manager, we are once again moving in a wonderful direction.

Please oppose the recall by voting “NO,” and let's keep working together.

-Joeinne Caldwell, Port Commissioner
